SUBJECT: MEXICO WILL RAISE CONCERNS ON GOM IN FIRST
COMMITTEE

REF: SECSTATE 99897

Classified By: Confidential by Deputy Minister Counselor for Political
Affairs James P. Merz for Reasons: 1.4 (b),(d).

¶1. (C) Poloff delivered demarche in coordination with Emboffs from the French and British Embassies. We emphasized that a P5 1 delegation, including Under Secretary Burns, was in the process of meeting with Iranian representatives October 1, at the same time as our meeting with Julian Juarez Cadenas, the Secretariat of Foreign Affairs' (SRE) Director General for Nuclear, Security, and Legal Issues. We underscored that, based on the troubling information regarding the secret facility the Iranian Government has been constructing for the last several years, the burden is clearly on Iran to prove the nature of its nuclear program is peaceful. In coordination with the French and British Emboffs, Poloff asked Juarez that the GOM make public statements in the IAEA Board of Govenors or elsewhere in support of this policy.

¶2. Juarez told us that the GOM shared our concern regarding the discovery at Gom. Mexico no longer sits on the IAEA Board of Govenors, as it stepped down from the rotating seat in September. However, Juarez noted that the UN's First Committee commences its work next week and told us the GOM would voice its concern over the issue in that forum.
